EDUCATION

Bangabasi College (February 2010 - May 2014)
B.Sc Hons, Economics

PROJECTS

Lets Poll
A polling site built with React and Firebase. Anyone can create a poll and share the link in the group and can check the result. Live update functionality has been added by using Firebase.

🔗 https://lets-poll-806b1.web.app/

React Press (MERN STACK)
I have developed an application similar to WordPress, where users can create and publish posts and pages. The user interface is designed using Tailwind CSS, the API is built with Node.js, and MongoDB as the database.

Ng Weather
This weather forecast application provides real-time weather updates based on the user's current location by using Angular and Openweathermap API.
